Future Web Developer

Volodymyr Dudych

I'm 17 and as an ICT student with a passion for web development, I'm constantly studying new programming languages and frameworks to expand my knowledge. I naturally enjoy solving problems, which I use to create attractive as well as useful websites and web applications.

Projects

1. <https://dudychvo/portfolio> [HTML5, CSS3, JavaScript]
2. <https://dudychvo/college-portfolio> [JavaScript]
3. https://dudychvo/digital_index [JavaScript]
4. <https://dudychvo/hangman> [JavaScript]

Work Experience

Leader **WEX Week**

April 2023 - April 2023 | United Kingdom

- A website was created in 3 working days.
- The website with many webpages was created for Rose's GATE Way.
- The website was only created by four persons.

Developer **Course work**

April 2023 - May 2023 | United Kingdom

- A website included a few pages with explanation of completed units from college.
- The website was created by using HTML5, CSS3 and JavaScript.
- A database is connected and correctly performs.

Developer **Course work**

May 2023 - June 2023 | United Kingdom

- A website was created in 1-1.5 month time; 3-4 hours each week.
- The website was created to sell phones.
- Two fully working databases were connected.
